Eye Witness To President Kennedy Assassination

Nov 16 - 1996

Hal —

Just discovered that you have a CONSPIRACY-
oriented program on TV! —

I am surprised !!! How can an obviously
intelligent person like you believe in a conspiracy ???
It appears to me you have decided that the
"if you can't lick 'em, join 'em" idea is the
best — (perhaps ^{most} attractive is a better word)
road to travel !!!

Hal If you have any REAL PROOF of a
Conspiracy to kill JFK, I suggest you contact
CBS or ABC, or the Washington Post — those
folks will probably pay you "handsomely" for PROOF,
repeat PROOF, of a conspiracy in D.C., and please
send me copies of said PROOF also !!! I have been
searching for PROOF too for 33 years & have drawn
a "blank"

(P.S. over plz)

Sincerely

Ernest Brandt

PS -

also Hal may recall studies of Zapruder's film & my own experience & knowledge of JFK's "line" when the first shot was fired tells me that JFK was hit in the neck while behind the highway sign in "Z's" movie - That would mean that JFK goes out of view of "Z's" camera at about frame 199 & re-appears at frame #225 - where he had his hands raised to his chin - the EXACT SAME motion I observed immediately repeat IMMEDIATELY following the FIRST shot!!!! In my belief is that JFK was hit between frames #199 + #225 - probably at about #205 to #210 because it took JFK, I guess, about one second to raise his arms following the neck wound - & he does appear in #225 with those ARMS already raised!!!!
